

Art and Simple Handicraft

are closely woven in our showing of Furniture—where comfort and character in design are the main attributes. The roomy Settles with soft cushions—the long Study Table—the Deep-seated Chairs—pieces that gather a positive meaning for the Country House Hall, Living Room and Study.

GREAT PARTY ENROLLMENT.

SOMETHING EVIDENTLY ASTIR IN DEMOCRATIC SOULS.

2% Per Cent. Added to the Democratic Primary Vote, 6.2% Per Cent. to the Republican—Two Districts Have More Men Enrolled than Votes Last Fall.

Only by a comparison of the results of the special enrollment printed in THE SUN last Friday morning, and of the regular enrollment of last fall can the intense activity in the Democratic party in Manhattan be understood. THE SUN here gives two tables. The first contains the results for Manhattan of the regular party enrollment in connection with the registration in October, 1901, and the special enrollment in May and June, this year, with the Democratic and Republican totals and the total possible primary vote this year. In the second table will be found the number of voters who registered last fall without declaring adherence to any party; the total registration of 1901, the Democratic and Republican vote in the election that followed and, finally, the total vote cast at that election.
